# Bio

Sébastien Ficagna and Rudy Centi had already played together in the PLASTIC PEOPLE group a few years ago.

In July 2018, when they do not really have any more musical projects, they discuss their musical desires and Sébastien makes listen to Rudy two songs that he just wrote.

During their conversation, the idea of a new duo «cold-noisy» takes shape. Alchemy is immediate. They challenge each other : to write 10 songs for September and to make a first concert in October !

They must also find an original and unpublished name. So difficult ! Finally after a brainstorming session with a friend, the name NAIROD YARG is adopted. This is of course Dorian Gray reverse. Dorian Gray in tribute to the Irish dandy Oscar Wilde, the «reverse» for the love of cinema, since it's a nod to a scene from David Lynch's cult series, Twin Peaks (with the strange navajo dwarf and his language so special ...)

singer)

Challenge met. They gave a first concert in October, with a dozen songs. A second concert is quickly given to the Radiant in Caluire (69) with the Nelly Olson (2nd band of Voyage de Noz

For 1 year, they refine their compositions and record their first album which will be released on vinyl on September 26, 2019.

The 11 tracks of the disc draw their inspiration from cold wave / post punk (Joy Division, The Cure ...), noise and punk (Sonic Youth, A Place to Bury Strangers ...) and electro for rhythms.

The texts in English and French are very film-inspired and describe situations that Hitchcock, Wim Wenders or James Bidgood would not have denied.
